MEMORANDUM FOR: INW

SUBJECT : Transmittal of Draft Working Paper on "The Strategic Use Pattern of Lead in the Soviet Bloc"

1. Attached for INW consideration is a CIA draft working paper to be forwarded for information to the USDel (COCOM) and used together with an OIR report on LEAD, in the preparation of a US position on lead for COCOM negotiations. A brief (INW/WP-5a) of the attached is also before INW to be approved for transmittal to the USDel for use in COCOM.

2. This CIA draft was prepared in response to the 28 July request of the Joint Committee on Export Control Levels (JCECL), reference INW Case 55. Members are asked to review it in the light of the OIR paper on LEAD, and of JCECL Document No. 226.50, a summary of the OIR paper.

3. Members are requested to expedite the clearance and substantive review of this paper so that it may be forwarded as a final report in time to serve a useful purpose in COCOM meetings on lead scheduled to commence on 2 November.
